Office Use Only:

Date Received: _____
Date Shipped: _____
Tracking Number: _____

Frequently Asked Questions

- **Q:** Why do I need to list my items I'm sending on the order form?
 - **A:** We must maintain a log of every single piece you are sending us in order to keep track of what we actually receive. If an item is not listed, then we are not responsible for it. (Please e-mail us ASAP if you forgot to list something so that we can make the change.)
- **Q:** What if my item is NOT disassembled? What do I need to list?
 - **A:** Please list as much as you can. We will take a log of everything for safe keeping. This is a small reason why we have a disassembly fee.
- **Q:** Who decided on your shipping charges?
 - **A:** We picked a fair number that would most likely be able to cover shipping and insurance for both handguns and larger firearms. The fixed rate will allow us the ability to keep prices fair for everyone.
- **Q:** What happens if a color is out of stock?
 - **A:** We will order more asap and contact you to inform you of the delay. In most cases we can have the replacement orders to our door in 1-3 business days.
- **Q:** Will I have to sign for my firearms when they are returned to me?
 - **A:** Absolutely. No ifs, ands, or buts. In order to avoid theft or loss, everything that we send will have a signature required and insurance. The only time we will waive that is if no serialized parts are included and the customer requests it.
- **Q:** If I pay for disassembly and reassembly and need work done like a pinned flash hider, can you do it?
 - **A:** Yes, in short we will help out with other gunsmithing needs either ourselves or with a local shop (Who does our pinning for example). We require you to contact us in case there are other fees or warnings associated.
- **Q:** Can you match colors with cerakote?
 - **A:** We will do our best to match colors as requested, HOWEVER, please note that the shades of cerakote might differ depending on lot number, composition of item being cerakoted (Metal, polymer, etc.), and prep work. If another cerakoter did your slide, it may be a different tint.
